

# RBN BACKSTAGE PASS

EXCLUSIVE ACCESS TO ENERGY MARKET INTELLIGENCE

## What is Backstage Pass?

RBN's Backstage Pass delivers a daily dose of expert analysis and commercial insight to help you make sense of the ever-evolving North American energy markets. Subscribers gain **exclusive access to RBN's historical blog archive** of rockin' blogs explaining industry fundamentals as well as covering key developments across crude oil, natural gas, NGLs, refined fuels, and renewable markets.

With a cross-commodity, data-driven approach, Backstage Pass brings clarity and context to complex energy markets. From infrastructure shifts to pricing dynamics and supply-demand trends, **RBN's expert analysis helps you connect the dots across energy sectors** and delivers commercial intelligence to understand how new developments influence current markets and shape future strategies.

## Why Become a Backstage Pass member?

### Early Access to the Daily Energy Blog

Gain timely perspective with early access to RBN's fundamentals-based blog, focused on market drivers and why they matter.

### Blog Archive Access

Leverage over a decade of searchable blog content to connect current developments with historical patterns and market behavior.

### Drill Down Report Library

Reference in-depth reports to track structural shifts, evaluate regional dynamics, and support long-term commercial planning.

### Interactive Map Search

Visualize infrastructure and flow patterns with searchable maps to better understand structural relationships and commercial positioning.

### Curated Playlists

Navigate fundamental energy topics and commodity trends through organized content paths designed to support onboarding, commercial alignment, and cross-functional learning.

Here's what our subscribers are saying about RBN's Backstage Pass

*"I love it [Backstage Pass] because it allows me to dig into a topic whenever your blog highlights something I know I should learn more about."*

—Private Equity Analyst

*"You make complex topics approachable and fun to read. Plus I love the music references!"*

—Midstream Scheduler
