

IT'S A GAS: HYDROGEN

Hydrogen without all the Hype

Hydrogen has taken center-stage among capital investors, Wall Street, and traditional energy players alike. What is just hype and what is reality?

In this **Virtual Studio Session**, **Renewable Energy** to be held June 29, 2021, we will bring together RBN senior analysts and industry leaders to cut through the buzz and get down to the straight-talk on hydrogen technologies, economics, and infrastructure developments, putting it all in language and metrics familiar to anyone conversant in energy markets.

STUDIO SESSIONS
VIRTUAL

JUNE 29, 2021

Agenda

8:30 Welcome and Introductions

8:40 Transitioning Today's Hydrogen Market to Tomorrow

Existing refinery, petrochemical and merchant Hydrogen markets, understanding hydrogen metrics, trends driving Hydrogen investments

Rusty Braziel,
Executive Chairman,
RBN Energy

David Braziel,
President and CEO,
RBN Energy

Jason Ferguson,
Manager,
Energy Fundamental
Analysis, RBN Energy

9:50 Morning Break

10:00 The Transition Chasm – From Dream to Reality

Evolution of today's hydrogen markets.
Hydrogen as a low-carbon fuel option at scale;
Legal and regulatory challenges.

Panel 1: Hydrogen Implementation Concepts

Chuck McConnell,
Executive Director, Carbon Management and
Energy Sustainability UH Energy, Chancellor/
President's Division University of Houston

David McCullough,
Partner,
Eversheds Sutherland

11:35 Lunch

12:35 Hydrogen Midstream and Infrastructure

Current Hydrogen infrastructure, how midstream might invest, technical aspects and challenges

Sean Strawbridge,
CEO, Port of
Corpus Christi

Brian Weeks,
Senior Director,
Business
Development
for Gas
Technology
Institute (GTI)

Kendrick Rhea,
Senior Manager of
Advisory Services,
East Daley
Capital Advisors

Tom Shaw,
President,
LK Energy

Noel Copeland,
Director of
GIS Services,
RBN Energy

2:20 Afternoon Break

Panel 2: Infrastructure and Market Challenges

2:30 Crossing the Finish Line

What does it take to develop and implement successful hydrogen projects?

Ahmad Atwan,
CEO, VC Fuel

Mark Chung,
Senior Hydrogen Infrastructure
Analyst, National Renewable
Energy Laboratory (NREL)

Panel 3: Building for the Future

3:40 Is It Real This Time?

4:00 Adjourn
