

# RBN Backstage Pass Premium Services Package **Focus. Clarity. Insight.**

## Overview

RBN's Backstage Pass provides clients with a daily dose of incisive analysis and actionable insights to successfully navigate the ever-evolving energy markets at every level.

Clients receive full access to our extensive vault of exclusive analytical knowledge covering key developments across the crude oil, natural gas and NGL landscape. RBN's direct, inter-commodity approach to market analysis cuts through the noise and brings focus and clarity to complex market issues, ranging from Canadian constraints to Marcellus growth and Gulf exports.

## What You Get

### Energy Blog Archive

Single, Focused Topic Daily  
Market Trends & Insight  
Daily History Back to Jan 2012

### Drill Down Reports

Comprehensive Research Papers  
Market Shifts & Corp Profiles  
20 – 50 Pages Each

### Webcasts

RBN CEO Rusty Braziel Presents  
Bi-Annual Market Update  
Past, Present & Future

## What We Provide

**Tagged and searchable** repository of analytical content that can be easily filtered and sorted to follow specialized topics

**Forward-looking** insights analysis at the vanguard of market developments, including RBN's proprietary fundamental forecasts

**Interactive graphical** view of the price models, ratios and differentials that drive market shifts

**Cross-commodity** coverage of the three markets (crude oil, NGL and natural gas) that affect upstream and downstream decisions and signal market shifts

**Explanatory, data-driven and unbiased** analysis and commentary that provides the relevant context to help you connect the dots

## How You Benefit

**Gain a deep understanding of market issues, fast**

**Spot market shifts early**

**Identify opportunities, make profitable decisions**

## Integrated North American Coverage Areas

Natural Gas

### Supply/Demand Trends & Outlook

Regular updates of the U.S. and regional supply-demand balance, including production, Canadian and LNG imports, LNG and Mexico exports, storage, futures market impact

### Mexican Markets

Pipeline development, power generation capacity additions, role of LNG vs. pipeline imports from the U.S., regulatory changes

### Transportation/ Infrastructure

Pipeline capacities, takeaway constraints, expansions and new projects, processing capacity, export projects, market impacts, pipeline flows, costs and netbacks, crude-by-rail, trucking

### Canadian Markets

Alberta supply trends, oil sands demand, power generation demand, constraints, flows, capacity and pipeline utilization, TransCanada system, new pipeline expansions, imports/exports, AECO and Dawn basis

### Upstream Focus

Drilling economics, basin-level analysis, operational factors (water, frac sand), processing and takeaway capacity, flaring, ethane recovery, RBN Production Economics Model scenarios, E&P financials, capex and profitability

### Demand Focus

LNG export projects, export pipeline flows and expansions, supply contracts, refineries,

Crude Oil

NGLs

## About RBN Energy

RBN Energy is about making connections across energy markets. We connect energy data with the information needed to understand that data. We connect physical markets for energy commodities with financial markets for managing price risk. And we connect people who need energy markets information with those that provide that information.
